INTRODUCTION

BarManiaPro gets people of all ages moving.

The health effects of physical activity on people's well-being are undeniable. Study after study has proved the importance of exercise and physical activity as part of people's overall wellness. Regular exercise reduces stress, helps the body function normally, supports recovery from illnesses, has a positive impact on the way we feel and, first and foremost, strengthens our physical fitness.

There is a huge range of different sports and forms of exercise. New training methods based on the use of body-weight develop all the time, such as street workout. The BarManiaPro sport and fitness range of equipment provides safe and durable training opportunities with modern designs for people of all ages, from people taking care of their physical fitness to athletes. All our concepts, from parkour to street workout, have been designed in collaboration with people specialising in the particular sport. Our products comply with the new safety standard EN 16330 for fitness equipment, so you can rest assured that when you buy an ensemble from us, it is safe, durable and among the best in the market in terms of usability. You can find the product information with all necessary details on our website. Don't forget to keep up with us also on social media.

BarManiaPro offers a modular system that is designed to give a wide variety and choice of setups for all needs and requirements. We only use high-grade metal which has been high temperature galvanized and finished with a double layer of powder coating. The clamps are made of aluminum and also finished with a double layer of powder coating. All of our products can be delivered in a wide range of colour choices. BarManiaPro offers a 10 years unlimited warranty and all equipment is according to the European standard NEN-EN 16630;2015.

QUALITY & SAFETY

BarManiaPro is partner of the World Calisthenics Organization (WCO). In cooperation with the WCO we actively organise events in two main categories of street workout and calisthenics:

- Street workout and calisthenics freestyle battles
- Street workout and calisthenics power and strength battles

These competitions take place annually and are organized by the WCO member organizations of different countries. In every country the competitions are organized with the same rules, which are published at the start of a season. The competitions are organized in the freestyle category, where each participant is given time in two rounds to show their best performance to three judges.

Static elements' judge, dynamic elements' judge and element combinations' judge. The main goal of this competition is to give the athletes of every country the same possibility to qualify for international events.

In coöperation with our partners we organize official
Street Workout & Calisthenics Battles

Make new friends

By going to calisthenics events, you get the opportunity to meet and befriend other people who share the same passion for calisthenics as you do. What's even more important is that you can exchange training techniques and ideas, share motivational stories, receive and give feedback, and other things that can help you advance in your training. Furthermore, these new friends can become training buddies, that can spot you during your training and keep you accountable.

Become a better athlete

When you go to a calisthenics competition, you are going to see some top level performances.

Apart from being very motivational, this gives you a chance to reflect on your own training and progress. Some of the questions that may cross your mind are:

"Where do I stand in relation to these guys?" "Does my training help me achieve these feats?"

As a result, your training is going to become more focused and result oriented and you are going to progress faster.

The new standard

Inspected for safe usage.

The EU-wide safety standard for outdoor fitness areas entered into force in 2015. BarManiaPro has designed all its products covered by the standard to meet these new requirements.

The trend is clear throughout the world: the demand for outdoor fitness areas in public places is increasing. In other words, people want to exercise outdoors, and therefore the authorities wish to ensure that this can be done safely. Therefore, a new EU-wide safety standard entered into force in 2015. All pieces of equipment are carefully inspected. We have an extensive range of products, some of which are not covered by the standard. For example the standard does not apply to free weight equipment, but we have ensured their safety as well. Still, in the planning of fitness areas, it is good to take into account that free weight products should not be placed in the immediate vicinity of playgrounds or day care centres, for example.

"It's really awesome to train
outside in the fresh air!"

The best thing?
I always take my son to the
workout park so he can play there,
while I am working out."

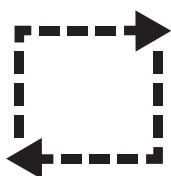

- Rico Mesa

Parks & Recreation

Since 2013 BarManiaPro has developed unique, innovative outdoor solutions for active public spaces in order to bring local communities together and ensure a well integrated society.

Through research, knowledge and close cooperation with our customers and users we have developed our portfolio, enabling us to create the right tailor-made solution together with you as a partner. As a result we make people of all ages sport and move every day, all around the world.

All of our solutions offer a compelling design, high play value, uncompromising safety, unique innovation and inclusive design. At BarManiaPro we understand that sportsgrounds are inclusive for all abilities, are vital for a well-functioning community.

BarManiaPro offers a wide range of design solutions for every type of environment, from rural to urban. Our wide choice of different product ranges allows us to blend products and landscaping seamlessly, whatever the location. Our designs require the lowest levels of maintenance possible by using the highest quality materials available, providing the highest wear performance. This increases the lifetime of the site considerably, and provides a strong defence against potential vandalism.

As your professional partner throughout this process, we will support you in the following areas:

- Consultation
- Technical and visual design
- Installation
- Maintenance and aftercare

BarManiaPro's approach to, and understanding of, the importance of physical activity allows us to provide public spaces that meet the aspirations of the community, benefitting the health and wellbeing of its users for many years to come.

Schools

With a BarManiaPro Fitness park on the grounds of your school, fun fitness comes into play – often spontaneously. To be healthy and active is more important now than ever before. Our kids and young adults need to be inspired to break away from an increasing sedentary lifestyle.

Our outdoor workout guides make it very easy for teachers and students to engage in fun fitness, both in and out of classes. The guides inspire to exercise, and will be a valuable tool for improving the overall health of your pupils and students, and even increase their ability to concentrate and learn. The different workouts inspire both teacher and student to be active in the schoolyard. All our Workout stations use your own body weight as resistance and are challenging and effective regardless of fitness level. As a result, the difficulty is tailored to each individual user.

The aesthetic and robust design expressed in our Workout equipment is very appealing. The shape and aluminum clamp system combine to create a highly transparent quality, which makes it suitable for any environment. The BarManiaPro Outdoor Workout parks are constructed from our exclusive glass-blasted stainless steel which minimizes vandalism and the need for maintenance.

Corporate Campuses

It is a well-known fact that fit and healthy employees are a big asset to any company. A BarManiaPro Outdoor Fitness park near or on the grounds of your business, is an easy and very cost benefit investment in the health, wellbeing and efficiency of your employees. A Workout park also represents a powerful statement about creating work-life balance for your employees. The free and easy access to exercise outside under a clear sky fills you with energy and oxygen, and enables you to both start and end a busy working day on a high note.

All our workout stations use your own body weight as resistance and are challenging and effective regardless of fitness level. As a result, the difficulty is tailored for each individual user.

The aesthetic and robust design expressed in our equipment is very appealing. The shape and material combine to create a highly transparent quality, which makes it suitable for any environment.

Hotels & Resorts

A BarManiaPro workout park at your hotel or resort will add to the quality and range of activities available to your guests and visitors. Our intuitive workout equipment, free to use and always available, will attract people of all ages who enjoy to spend time outside in the fresh air. The opportunity to work out in a relaxed environment under a clear sky will be appreciated and remembered.

WARRANTY

Terms and Conditions

These warranty terms cover the products and components manufactured by BarManiaPro®. The warranty is valid only on the condition that the foundation, installation and maintenance work have been carried out and documented according to BarManiaPro instructions. A logbook of the handover inspection and documents for maintenance work carried out have to be presented, if necessary.

Warranty times

10 years

- steel components and structures
- elements made of high pressure laminate (HPL)
- aluminium components
- fibreglass-reinforced plastic components
- preserved wooden parts with no ground contact
- preserved wooden parts with ground contact (in Europe)
- concrete parts
- surface finish of steel and aluminium components

5 years

- preserved wooden parts with ground contact (outside Europe)
- unpreserved wooden parts
- plastic and fibreglass parts
- steel reinforced nets and ropes
- springs

3 years

- rubber and rubber-coated parts, polyurethane parts
- moving parts, malfunctions
- steel cables, chains
- surface finish of other than steel and aluminium components
- painted or surfaced boards.

Product specifications

Steel:

Posts: Ø101 x 3,6 mm.

Bars: Ø33,7 x 3,25 mm.

Dipbars: Ø48,3 x 2,9 mm.

The conservation of the materials:

1. Sandblasting
2. Metal spraying (galvanizing)
3. Double layer powdercoating

Patented clamp system

Aluminum clamp with rubber inlay and stainless steel bolts, torx with safety pin.

Covered by warranty

The warranty covers free delivery of components covered by the warranty to BarManiaPro retailer's storage that is relevant to the case or nearest to the customer. Defective parts must be replaced with BarManiaPro components. If requested, any damaged components must be returned to BarManiaPro at the sender's expense. The warranty of any replaced product or part thereof shall remain valid until the end of the warranty period of the original product or part.

In the event of damage or loss during transport, the delivery terms shall apply in export trade. The recipient is responsible for checking the delivery against the packing list or dispatch note prior to accepting the delivery. If there is any external damage to packaging, this should be noted in the bill of lading. If there is any damage in the product sustained during transport that could not be detected on receipt, the forwarder's representative must be asked to inspect the goods within seven (7) days of receipt of the goods.

Not covered by warranty

- Normal wear and tear or damage sustained during incorrect storage, installation or use, or resulting from vandalism or natural disaster.
- Corrosion of metal parts caused by salt water or salt-water fog.
- Corrosion caused by scratches and dents.
- Minor natural cracks or bends, splints or tears in wood.
- Slight fading of colours or other cosmetic faults and defects.
- Faults resulting from negligence of installation and maintenance instructions, or faults resulting from maintenance.
- Any modifications or repairs made in the product or parts thereof by other parties than BarManiaPro.
- The installation costs of the parts replaced under the warranty.

BarManiaPro's responsibility for faulty products or parts thereof is limited to what is stated in these terms of warranty. BarManiaPro shall not be responsible for any indirect costs, losses or damages.

This warranty applies to all orders delivered after 1 January 2019. In warranty issues, please get in touch with your contact person.

DELIVERY SERVICE

Delivery

BarManiaPro® equipment is delivered as components and elements with:

- despatch notes
- installation instructions
- inspection and maintenance instructions

BarManiaPro design criteria ensures efficient packaging for ease of transportation. The packages are placed on pallets to speed up the loading and handling, and significantly reduce transport damage and costs.

Installation instructions

With each BarManiaPro product we attach clear assembly and installation instructions. Components are clearly numbered in order to make the installation as easy as possible. In the illustrated installation instructions you will find all the necessary information.

Minimum safety zones

The safety area for each product is shown in the catalogue and also in the installation instructions. Since product may change during the validity of this catalogue, the safety area must always be built according to the installation instructions provided with the product. Up-to-date documents can also be found on the BarManiaPro website.

Foundation

As standard, the equipment is installed on underground foundations. Alternatively, the equipment can be surface mounted. Please specify when placing your order if you wish to opt for surface mounting.

Installation

Installation instructions are sent with all products and must be followed. The equipment must be assembled and installed on site following the installation instructions given by the manufacturer.

Ordering instructions

Orders can be made by letter, e-mail or phone. If modifications are required to standard products, please advise in writing.

Information on delivery

If you have placed an order and need information on the delivery or if you have a problem with the delivery, please contact your local distributor.

Terms of delivery

Prices include goods-in-transit insurance and freight costs. The products are delivered to the client's property; the client is responsible for unloading the lorry. Please make sure that you have the necessary unloading equipment ready to avoid delays. Orders for standard products can be cancelled without any extra cost within 8 days of placing the order. Cancellations of orders for customised products are subject to a charge of 70% of the product's price. The delivery time can be postponed once (by a maximum of one month), but no later than one (1) week before the date on which the delivery vehicle is due to leave the factory. A small delivery surcharge is levied on deliveries of small batches.

Delivery time

We deliver within 8-12 weeks from receiving your order, depending on the season and the products. Please order standard products well in advance - no later than 8 weeks before you need them - to ensure that we can provide you with the product at a reasonable price even in high season. We normally reserve around 8 weeks for delivering products that have only been introduced in the most recent catalogue.

Product modifications

We develop our products constantly in line with international standards concerning both safety and quality. Therefore we reserve the right to modify our products and prices.

Patents & protection

BarManiaPro® holds valid patent and design protection for its products. All rights are reserved.
